INTERVIEW WRITTEN STATEMENT

Applicant thanks the Examiner for his assistance and consideration of Applicant's claim amendments and remarks during the Interview of 15 June 2005, which was attended by Examiner Lonsberry, Mr. Jack Rule, Mr. Todd J. McGuire and the undersigned attorney.

During the Interview, a brief introduction was provided to the Examiner regarding the inventive concepts set forth more fully in the specification for the present patent application. Further, proposed amendments to the claims, which had been previously been provided to the Examiner in draft form and are reflected in the present amendments to the claims, were discussed. In particular, Applicant opined that the Quake 3 reference, utilized by the Examiner in combination with other prior art references to find each of the pending claims unpatentable under 35 U.S.C. 103(a), does not teach a "video reporter ... wherein the Movie is utilized to characterize user behavior" as set forth in each of the pending claims after entry of the present amendments. Applicant notes that in response to such arguments, the Examiner indicated that the proposed claim language appears to overcome the Quake 3 reference, but that further searching may be necessary.

The Interview concluded with Applicant agreeing to formally enter the above amendments to the claims.
